DunaSpirit background

Some very specific aspects of the DunaSpirit is rooted in our pre-IndoEuropean times in the ancient past (see. [M. Gimbutas' work](#)) and we do intend to regenerate those days of peaceful, thriving and innovative economy, social balance and equilibrium, sacred respect for the feminine and masculine in true understanding and complementarity.

Our regional events are aiming at holding the partnership spirit and intention wanting to manifest in projects, network learning and transformative inquiry.
